Basic Footnote ...

The Comment Btn

likes, reactions, comment btn, share, give monies, etc

Like react and display

comment

share/send

appreciate

like thumbs up

don't like thumbs down

don't care / not bothered / difficult to say

comment option appears

after clicking reaction

automatically assigns

cmnt to the category

i.e. like triggered comment but with
don't like comment is against the rules

in the future regulated by AI ;)
